Pediatric dental prices are designed to exclude medical examination fees, as with children the time spent on each procedure may vary from patient to patient. When treating children, our goal is to try and work together to provide the most pleasant care possible. As a result, we try to allocate all the time necessary on an individual basis.

Items in the pediatric dentistry price list are valid for treatment of primary teeth and for treatment affecting all teeth in patients up to the age of 12. For treatment of permanent teeth and for treatment affecting all teeth in patients age 12 and over, the adult price list is applicable.

The price of the pediatric check-up in addition to the fee of certain treatment is charged as follows.
